**HAPPY THANKSGIVING!!**

We can hardly believe the year is almost over. The Halloween party at Frank and Alice's was a big hit as always with a great turnout. We think we probably put on a few pounds before we left their house.

We'll close out the year with the **Christmas Party at the Moose Lodge in Mansfield on December 13 with a great buffet and the entertaining voice of Jane Horton.** Reservations will be taken at the November meeting. The cost of the buffet is \$6.00 for members and \$12.00 for non-members. **We will be collecting toys, hats, gloves and paper products for the Harmony House, Mansfield's homeless shelter, at the November meeting and the Christmas party. Please help us support them.**

While 2008 is almost over, we can look forward to 2009. **Cabin Fever will be coming up in February.** Our own **Carol Culler** designed the logo that will appear on the tee shirts and pins. Way to go Carol! We have a great staff in place for 2009 and a new chapter couple, **Rob and Bernice McDowell**, who we know will do Chapter B proud. Congratulations Rob and Bernice! In addition, we have two new members, Kevin & Bonnie Stamper.

**See you Soon**  
**Larry & Debbe**

Can't believe this is November already. The leaves and temperatures are falling fast. No more riding the bike to work for me. Guess I'll have to get her ready for winter and put her away for now.

When **Larry and Debbe** asked **Jackie and I** to be their ACDs we didn't know what to expect since we were fairly new members but we decided we were ready for the challenge so we accepted their offer. We have not regretted a minute of our decision. We are learning more about what it means to be a **GWRRA member** and everything that **GWRRA** has to offer. We have made a lot of new friends this past year and hope to make a lot more in the coming year. We are looking forward to attending our first state officers meeting this coming Saturday as we are sure we will come away with some new ideas that will be helpful not only to Jackie and me but will be helpful to the chapter, too. Becoming GWRRA members has been a positive thing for the two of us and we can't say enough about how friendly and caring everyone has been everywhere we go. If you are ever undecided about whether you should continue your membership with GWRRA, we would encourage you to talk to any GWRRA officer or member. Once you do, we are sure you will choose to remain in this great organization. We are sorry we will miss the November meeting but we will be at the state officers meeting with Larry and Debbe.

**CHAPTER RIDER EDUCATORS  
TED & JOYCE**

Hi all:

This month I am borrowing an article from another educator. It is what I wanted to write about this month and he says it well.

November is upon us once again. Since most of you are thinking of putting your bikes and trailers away for the winter, I will again offer a few tips for getting your trusty steed ready for winter storage.

First, change the engine oil. Dirty oil contains acids, hydrocarbons, and other chemicals that will microscopically eat and corrode your engine and components during storage.

- Wash and wax your bike and trailer. Be sure to put plenty of wax on all metal parts, especially chrome and aluminum including the wheels. This will help keep rust and corrosion from forming while they are in the cold and dampness of storage.
- Store the bike on its center stand. This keeps the weight off the suspension. It also helps prevent flat spots on the tires. Bikes stored on the side stand tend to develop flat spots on the sides of the tires.
- Whether you remove the battery from the bike or choose to leave it in the bike, put a battery maintainer on the battery. Your battery will last a lot longer by doing this. Using anything but a good battery maintainer can result in cooking your battery thus shortening the battery life.
- DO NOT start your bike every so often through the winter to charge the battery or whatever other reason unless you are going to ride it for a half hour or longer. It takes that long to warm up the bike and charge the battery. When you run the engine without proper warm up, the engine and exhaust can't burn off the moisture created by running a cold engine. Moisture causes rust and corrosion.
- Remove anything you don't want to freeze such as liquids, polishes, and even flashlights and batteries.

- If you put a cover on your bike and trailer, use a cloth cover that will breathe. Old bedspreads and sheets work well. Using a non-breathable waterproof cover can cause moisture to stay under the cover resulting in rust and corrosion forming.
- Check you trailer wheel bearings for water and repack with fresh grease. I prefer using marine grease as water does not affect it. Water left in the bearings will cause rust to form in the bearings at the points of contact due to the wheels not being moved due to storage. Rusty bearings will fail and or tie up prematurely.
- Store the bike with a full tank of gas. This will help keep water condensation from forming in the gas tank. Tanks made of steel can rust. Put stabil in the gas. This product will help keep the gas from going stale and forming varnish during storage.

Doing these things will help keep winter storage damage to a minimum as well as making it easier to do your spring maintenance.

**NEWSLETTER EDITORS  
JIM & CAROL**

Hi Everyone:

Boy, we have had a great riding season. Sorry to see it all end for the winter. **Larry and Debbe** did a great job scheduling the rides, setting them up, and lucking out with great weather. They must know someone up there. When we went with the group on the Leaf Ride to Oil City, Pennsylvania, the weather could not have been better. Even with the large group we had, (24 bikes and 41 people) the ride went great. Even on the rides we did not get to go on, we heard how great they were and how well it was done. The season has come to a close and now they must step down from the Ride Coordinator position so they can focused on being our Chapter Directors. They would like someone to step forward and be the new Ride Coordinator for the coming riding season in the Spring of 2009. Remember, you are not doing it all alone, everyone will always help by either setting them up or leading them. We have a lot of great members in this Chapter with a lot of riding experience to offer. So, please, if you're interested, call **Larry and Debbe**. They would certainly appreciate it.

**See you soon!  
Love, Jim and Carol**

**MEMBERSHIP ENHANCEMENT  
PHYLLIS**

We have had a great year. So far we have 4 new couples added to Chapter B. **Doug and Deb Friebl, Larry and Cheryl Moore, Mike and Judy Borders Eric and Cheryl Steinhilber** and our newest members, **Kevin and Bonnie Stamper**. If you haven't had a chance to meet the new members please do so. We are very blessed to have added some really terrific people.

If you know anyone who might be interested in joining, please invite them to a meeting, or on a ride. Dinner rides are a great time to get to know new people and they can enjoy a good time with us.

Let's see if we can outdo this number next year.

**SUNSHINE LADY  
JOYCE**

**Sunshine lady here.**

**Happy Thanksgiving** to all of our special friends! Hard to believe it is November already. That means Christmas is just around the corner! Wow, time sure flies! Some of our friends have already gone South, we miss you and send you special holiday wishes.

This is the time of year not only for turkey and all the trimmings, but most of all, the time to give thanks for all that we have, especially for our health, family, and friends. We thank each and every one of you for your wonderful friendship.

We received news of a couple from Chapter I, **Bill and Carol Patterson**, who were in a serious motorcycle accident. Please remember Carol and her family in your prayers as they lost Bill.
